Installation possible to most European flushing systems and concealed siphonic urinal traps.

Drawings not to scale!

KISSES 'B' INSTALLATION KIT...

NEDERLANDS ...

Het Kisses urinoir is ontworpen op basis van Europese standaarden en aansluitingen. Bathroom Mania! raadt je aan het urinoir te laten installeren door een erkende installateur of loodgieter. De installatie- en montage instructies van het spoelsysteem en de sifon zijn afhankelijk van het gekozen spoelsysteem en de specificaties ter plekke en worden in deze 'How To' niet beschreven. Voor de exacte montagevoorschriften van de spoelsystemen en sifons verwijzen wij dan ook naar de leverancier van de desbetreffende onderdelen. Mocht je problemen ondervinden bij het verkrijgen van de juiste aansluitmaterialen, neem dan contact met ons op via onze website.

Bathroom Mania! garandeert je dat alle Kisses urinoirs uitvoerig gecontroleerd zijn. Echter, Kisses is gemaakt van porselein, dit is een materiaal waarbij enige toleranties van toepassing zijn en waarbij kleine oneffenheden en kleurvariaties niet voorkomen kunnen worden. Deze oneffenheden en kleurvariaties kunnen dan ook geen aanleiding vormen tot reclamaties richting Bathroom Mania!

We zouden het leuk vinden als je ons een foto mailt van jouw geïnstalleerde Kisses en we hopen dat je veel plezier aan ons product mag beleven!

ENGLISH ...

The Kisses urinal was developed based on European standards and fittings. Bathroom Mania! recommends to have the urinal installed by a qualified specialist. The installation instructions of the flush and drain components depend on your location and the specific components used and are as such not described in this 'How To' manual. For installation instructions for these components we refer to the instructions supplied by the manufacturer of the component. In the case you have difficulties to find the required connection/fitting material, please contact us via our website.

Bathroom Mania! guarantees that all products have passed extensive quality control procedures. However, the Kisses urinal is a ceramic product, which is subject to tolerances and slight imperfections. Minor deviations in colour and small imperfections in the glaze surface cannot be prevented. These deviations and imperfections can never constitute grounds for compensation from Bathroom Mania!

We would appreciate it if you could send us a picture of the installed urinal. Thank you for your order and we hope you will enjoy our products!
